*Prader-Willi Syndrome (PWS) is a non-hereditary genetic disorder affecting one in 15,000 people. Common traits of PWS include (literally) insatiable hunger complicated by a very slow metabolism, learning disabilities, speech and developmental delays, severe behavioral issues and weak muscle tone.*

Dear Friends and Loyal Supporters:

The personal, financial and emotional challenges for those with PWS and their families/caregivers is tremendous, requiring relentless vigilance and life-long attention and support. Can you imagine never feeling full; always hungry?

Because of our generous donors, we've been very successful, allowing us to sponsor PWS (**P**eople **W**ith **S**miles) Camp. This is the tenth year we've been able to offer PWS kids a true camp experience and their families an overdue respite. We avidly support our transitional, residential and crisis care facilities to improve the welfare of our aging children. We're passionate about promoting PWS education, raising awareness while working to improve communication within the PWS community.

On behalf of TXPWA, to help us raise funds, please consider donating an item to our raffle or live/silent auction. We will be happy to work with you to create the appropriate visibility for your company and product(s) at our event. We also invite you to come out and play golf to raise money.
